Advice preparation and implementation fees

Prior to the provision of personal advice we will agree upon a preferred payment option for both parties. Below is a summary of our available payment options that can be combined to pay for our services.

Where we are aware that you have used borrowed funds (ie funds that are either secured or unsecured) to invest through us, we will charge you a flat dollar fee.

These fee options include:

Time based charging

- i) The fee for the preparation and implementation of our advice is calculated based upon the time we spend developing the plan. Our hourly rate is \$330 per hour (incl. GST) with our advice preparation fee ranging from \$1,650 to a maximum of \$20,000 (incl. GST).

Price can vary depending on scope and complexity of the advice and we will provide you with an estimate of the overall cost. If extra charges apply, then we will inform you before proceeding with any work.

Service based charging

- ii) The fee for the preparation and implementation of our advice is calculated based upon a fixed price agreement. This fixed dollar amount will vary based upon the complexity of advice being provided and agreed upon prior to commencement. Our minimum fee for this is \$1,650 (incl. GST) up to a maximum of \$20,000 (incl. GST).

Life insurance

- i) The fee for the preparation and implementation of our advice is calculated as a percentage of the premium amount paid. Our minimum fee for this is \$1,650 (incl. GST) and the maximum fee as detailed in fee schedule 2 below.

Schedule 2 (Retail insurance)

The maximum fees are based on the commission payments detailed in the section titled 'Our fees and other costs' in Part 1 of the FSG under 'Life Insurance Products'.

If you decide not to implement our recommendations, the fee for the preparation of the Statement of Advice will be payable in full.

Supplementary service fees

For supplementary services, such as the provision of general research material or the completion of administrative tasks, our fee will be calculated on a time basis of upto \$330 per hour.

Ongoing service fees

Our ongoing advice fees vary depending on scope and complexity and range from \$770 to \$16,500 (incl. GST) unless otherwise agreed. The exact cost of the ongoing review service will depend on the review offering we recommend, and this will be disclosed within the Ongoing Service Agreement we provide to you.

Below is a summary of our available review packages:

1. DIY starting at a cost of \$ 809
 - Administration Services with the option of an annual review at additional cost
2. Select Service Starting at a cost of \$1,617
 - 1 Annual Review
3. Premier Service Starting at a cost of \$2,310
 - 1 Annual Review
 - 1 Interim Review
4. Diamond Service Starting at a cost of \$3,810
 - 2 Annual Review

Should you require any additional services outside of any agreement between you and your adviser, an amount of up to \$330 per hour, may be applied.

**Non-advised
transaction fees**

If we assist you on an execution only basis (ie where you have been offered and declined advice), a fee of up to \$ 330 per hour will be applicable.

**Other third-party
payments we may
receive**

We may also receive the following fees, which are not payable by you.

Stamping Fees

Where we facilitate Share Placements and Initial Public Offers in relation to ASX-listed Direct Equities (i.e. Shares - this excludes Listed Investment Companies and Trusts), we may receive up to 1.5% of the transaction value as “stamping fees”.

Insurance Commissions

Where we facilitate the acquisition, or modification of a Life Insurance product, we may receive commissions as described in Part 1 of this FSG.

Where we provide advice in relation to the above transactions and charge an advice fee, we may choose to rebate part or all of the third-party payment, to you.
